Who is a

HEART HERO?

A Heart Hero is a child with a congenital heart defect (CHD). CHDs are detected in utero, at birth or later in life. Heart Heroes may need one surgery, routine complex medical procedures throughout their life and/or may never need a medical intervention in order to maintain their heart health. Heart Heroes can be fighting their battle with CHD on earth, or may be Heart Hero Angels, ones who we have lost too soon.

Heart Heroes have exceptional strength because of their CHD. They show great courage which has carried them through life-saving operations, countless doctors' appointments, pokes, prods and hospital stays. Thus, Heart Heroes are empowered with a superhero cape to help sustain their incredible bravery.

About

HEART HEROES, INC.

Heart Heroes, Inc. began in 2009 with a group of moms who wanted to empower their children who had congenital heart defects (CHD). With an idea of a superhero cape, Heart Heroes has grown from a few children, to thousands of Heart Heroes all over the world.

Our mission is to provide support and comfort to children and families affected by CHD through the distribution of superhero capes and other forms of encouragement and inspiration.

Our goals include:

Child Empowerment through the distribution of Heart Hero Capes

Family Support through events, meetings and outreach

CHD Awareness and Education through our website, newsletter and the Superhero Heart Run

Advocacy and Research through our partnerships with other CHD organizations

How do I

REQUEST A CAPE?

To request a cape, go online to: HeartHeroes.org
