

FUNDRAISING EVENT DESCRIPTION

Heart Card Activity –

Imagine being a child in the hospital for heart surgery and receiving a card written from another kid your age, wishing you well and hoping you get out of the hospital soon. Great when done in conjunction with a CHD talk or other fundraiser! Make cards or pictures with encouraging statements, prayers, or thoughts on them and take them to the cardiac department of the local children's hospital. Imagine being a child in the hospital for heart surgery and receiving a card written from another kid your age, wishing you well and hoping you get out of the hospital soon.
