

## **Diversity, Equity, and Inclusion Statement**

At Heart Heroes, we are dedicated to fostering a culture of Diversity, Equity, and Inclusion (DEI). We believe that every child and family affected by Congenital Heart Disease (CHD) deserves support, regardless of their background, ethnicity, race, gender, ability, or any other characteristic.

We are committed to creating an inclusive and welcoming space for all, where diverse perspectives are valued and respected. Our programs and services aim to reflect the rich tapestry of our community, ensuring that everyone feels seen, heard, and supported.

In our journey towards equity, we recognize the importance of continuously educating ourselves, embracing diversity, and addressing systemic barriers. We strive to build a Heart Heroes community that celebrates differences, promotes equality, and works towards a world where every heart, regardless of its condition, is embraced with love and understanding.

This DEI statement is a living commitment that we will revisit and enhance to meet the evolving needs of our diverse Heart Heroes family.
